ITEM 2 BUSINESS OF THE CORPORATION

2.1 Structure

The Corporation was incorporated under the laws of the Province of Ontario on August 3, 2021.

The head and principal office of the Corporation is located at 1614 Dundas Street East, Unit 103, Whitby, Ontario, L1N 8Y8, and its registered office is located at 1614 Dundas Street East, Unit 103, Whitby, Ontario, L1N 8Y8.

The Corporation is not a reporting issuer in any jurisdiction and none of its securities are listed for trading on any Stock Exchange.

2.2 Our Business

General

The Corporation intends to qualify and carry on business as a Mortgage Investment Corporation (MIC) under the Tax Act. This effectively will enable the Corporation to operate as a tax-free "flow through" conduit of profit to its shareholders since it does not pay income taxes on net earnings from which dividends are paid.

Our business objective is to obtain a secure stream of income by optimizing its investment portfolio within the MIC criteria mandated by the Tax Act. These criteria provide, among other things, that one of the primary investments a MIC may make is Mortgage Loans secured by residential properties or leaseholds.

Our primary business is earning income through investing in mortgages. There is an established need for real estate mortgage financing that is not readily provided by banks, trust companies, credit unions and other traditional lenders. Short term mortgage financing is a continuing need of individuals, builders and real estate developers and because of their need for flexibility and quick response, they often require the services of private lenders and organizations such as the Corporation.

Our income will primarily consist of our portion of the interest or distributions generated from our investments. As a MIC, we are allowed to deduct dividends that we pay from our income. Subject to such working capital or reserve requirements as the directors of the Corporation determine are necessary or desirable from time to time to meet the current and future expenses, liabilities, commitments and obligations of the Corporation and for the conduct, promotion and protection of the business and activities of the Corporation, its assets and shareholders, the Corporation currently intends to distribute to its shareholders substantially all of its net income and net realized capital gains as dividends within the time period specified in the Tax Act with the result that we will not pay any income tax.

Our mortgage portfolio will mainly consist of residential with the option of commercial financing.

We will enter into First Mortgage, Second Mortgage and Third Mortgage agreements with qualified mortgagors with such mortgages to be secured by the mortgagors' equity in residential and commercial properties and the terms of such mortgages will be consistent with terms of conventional mortgages having the usual and necessary provisions to constitute a full mortgage in good standing, properly registered in the appropriate Land Titles Offices and having real property as the primary security for the mortgages. We will give priority to higher interest rate mortgages to prospective mortgagors who cannot obtain mortgage

funding through more conventional sources. On a case by case basis mortgages may be secured against more than one property as cross collateral to secure our priority and equity.

We may purchase interests in syndicated mortgages in which we participate with one or more lenders. Syndication may be on a *pari passu* basis or on a subordinated basis or on a preferred basis. Participating in syndicated mortgages reduces our investment and corresponding exposure in any one mortgage investment.

A syndicated mortgage investment may also be structured as a securitized mortgage. We may create securitized mortgages in its existing established markets and in lower rate markets. The lower rate market is comprised of projects which, because of their features and market conditions have lower perceived risk and; accordingly, are funded at lower interest rates. In order to take advantage of this lower rate market, we may syndicate these mortgages by offering priority and subordinated investment positions in the mortgage and fixing the rate of return for each position, thereby creating a securitized mortgage. Each position within a securitized mortgage will have a different fixed rate of return going from a lower rate for the first position to higher rates on a graduated basis for the subordinate positions and a different priority position in respect of payments of interest, other distributions and returns of capital. The Manager will have sole discretion to set and adjust the fixed rates of return for all participating interests it offers in securitized mortgages and may adjust the rates offered from time to time or at regular intervals to meet changing circumstances. The Manager may also enter into agreements with securitized mortgage participants from time to time setting and governing priorities and the relationship among the participants. If we invest in securitized mortgages offered by the Manager, we will invest in a position in the mortgage that conforms with our investment policies at the time.

The Manager may generate additional revenue, including bonuses, due diligence charges, lending fees, administrative set up fees, renewal (mortgage extension) and discharge fees, mortgage guarantees and mortgage stand-by fees.

The Tax Act's MIC criteria permit revenue sources other than mortgages, including, among other things, equity investments in real estate and investments in stocks and securities of Canadian companies. Notwithstanding our ability to invest in the array of investments allowed under the Tax Act, it is our policy to invest its non-CDIC (e.g. bank deposit) holdings in mortgages secured by Canadian real estate property, primarily residential real estate property. A MIC's only permitted undertaking under the Tax Act criteria is the investing of its funds, and it is specifically prohibited from managing or developing real property.

To the extent that our funds are not invested in mortgages from time to time, they will be held in cash deposited with a Canadian chartered bank or will be invested in short term deposits, savings accounts or government guaranteed income certificates so that we maintain a level of working capital for its ongoing operations considered acceptable by the directors of the Corporation.

We have exclusively appointed the Manager under the Management and Mortgage Services Agreement to use its reasonable efforts to originate, source or arrange for us eligible investments that meet our investment policies at the time we initially invest. We will not actively employ resources to actively seek or originate mortgages for investment and relies exclusively on the expertise of the Manager for a regular flow of investment opportunities. See "*ITEM 2 - Business of the Corporation – Our Business - Management and Mortgage Services Agreement*".

We have also appointed the Manager as our investment fund manager and mortgage administrator pursuant to the Management and Mortgage Services Agreement. The Manager will be responsible for managing our business, operations and affairs but will not provide advice with respect to our mortgage investment portfolio. See "*ITEM 2 - Business of the Corporation – Our Business - Management and Mortgage Services Agreement*".

We intend to conduct business initially in the Province of Ontario. We may expand our business into other provinces, and if so we will apply, if necessary, to become registered under corporate and applicable mortgage brokering legislation to carry on business as a MIC in such provinces, unless an exemption is

available that would allow us to continue our operations without disruption. As of the date herein, the MIC is not licensed as a mortgage brokerage or mortgage administrator under the *Mortgage Brokerages, Lenders and Administrators Act* of Ontario, and intends to rely on the exemption from licensing as a mortgage brokerage pursuant to Ontario Regulation 407/07 section 15, whereby the MIC shall carry on business as a mortgage lender solely through a licensed mortgage brokerage, such as Altra Inc. operating as Altra Lending, with license number 10352. Furthermore, the MIC does not intend to manage or administer mortgages that are not on its own behalf, and therefore is not required to hold a mortgage administrator licenses. Altra Lending is not at arm's length with the Corporation in that some of the shareholders, directors and officers of Altra Lending, are also directly or indirectly common shareholders of the MIC, and also directors and/or officers of the MIC. This is also a form of a conflict of interest. Conflicts of interest exist, and others may arise, between and among the directors and officers and shareholders of Altra Lending and the Corporation and their associates and affiliates. There is no assurance that any conflicts of interest that may arise will be resolved in a manner most favorable to Subscribers. Persons considering a purchase of Preferred Shares pursuant to this Offering must rely on the judgment and good faith of the directors, officers and employees of Altra Lending and the Corporation in resolving such conflicts of interest as may arise. By way of an example some of the controlling common shareholders, directors and officers of Altra Lending are also the controlling common shareholders, directors and officers of the MIC and may procure or underwrite mortgage loans or investments where the fees, such as the broker fees, that Altra Lending will keep, can influence its decision to proceed with the said mortgage or investment.

Investment Policies and Business Development

Our mortgage portfolio composition will vary over time depending on the Corporation's and the Manager's assessment of the appropriate strategy given overall market conditions and outlook. The Corporation and the Manager will endeavor to build a mortgage portfolio that encompasses the following general characteristics:

- (a) property type and geographical diversification;
- (b) short term loans, intermediate term loans and long-term loans;
- (c) payment schedules primarily of interest only; and
- (d) loans in Canadian dollars on primarily Canadian based real estate.

Operating Policies

We have established certain restrictions on investments that may be made by us as follows:

1. We may invest only in Residential Mortgages and Commercial Mortgages. Investments will be made by purchasing interests in mortgages offered for sale by the Manager.
2. We will invest primarily in First Mortgages, and Second Mortgages.
3. A First Mortgage may not exceed 80% of the appraised value of the underlying real property securing the mortgage, as determined by a qualified appraiser and calculated at the time of commitment.
4. A Second Mortgage may not exceed 80% to 85% (in certain circumstances from time to time) of the appraised value (net of any First Mortgage) of the underlying real property securing the mortgage, as determined by a qualified appraiser and calculated at the time of commitment.
5. Mortgages in which we invest may contain clauses permitting the mortgagor, when not in default, to renew the mortgage for additional terms at the sole discretion of the Manager and not the borrower.
6. We may participate in mortgages on a syndication basis.

Investment Guidelines

In addition, we have established the investment guidelines set out below that are consistent with the provisions of the Tax Act and real estate legislation applicable to us. See "*ITEM 6 - Income Tax Consequences and RRSP Eligibility*".

1. Our only undertaking will be to invest our funds in accordance with its investment objectives, strategies and restrictions.
2. All mortgages will, following funding, be registered on title to the subject property in the Corporation's name, the Manager's name, or its affiliates, or a nominee for the Corporation, such as the Manager.
3. All mortgage investments will be made initially in established or developing areas in the Provinces of Ontario.
4. We will attempt to maintain at least 50% of our assets in investments in mortgages over residential real estate or residential leaseholds in Canada.
5. No more than 25% of our assets will be invested in mortgages over commercial and industrial real estate.
6. We will aim to invest in mortgages on properties for which we have reviewed and evaluated an independent appraisal or Qualified Appraisal.
7. If the independent appraisal reports an appraised value for the real property securing the mortgage other than on an "as is basis", we will advance funds under a loan by way of progress payments upon completion of specified stages of construction or development supported by receipt of reports of professionals, architects or quantity surveyors, as applicable, or upon completion of other specified milestones.
8. So long as we are able to, or have qualified as a MIC, we will not make any investment that would result in us failing to qualify as a MIC or which investment would impair our status as a MIC.
9. Subject to paragraph 13 below, we will not invest in securities, guaranteed investment certificates or treasury bills unless such securities, guaranteed investment certificates or treasury bills are issued by an arm's-length party and are pledged as collateral in connection with mortgage investments or obtained by realizing on such collateral.
10. We will not invest for the purposes of exercising control over management of any company.
11. We will not make short sales of securities or maintain a short position in any securities.
12. We will not guarantee the securities or obligations of any person.
13. To the extent that our funds are not invested in residential and commercial mortgage investments and bridge loans, the funds will be placed in short term investments so as to maintain a level of working capital for our ongoing operations considered acceptable by our directors.

If, due to a change in the provisions of the Tax Act or other legislation applicable to us, any of the foregoing restrictions require amendment in order to comply with such change in legislation, our directors may make such change and such change will be binding on us. In addition, the foregoing restrictions may be changed at any time (so long as such change complies with applicable legislation) if the change is approved by a special resolution (as such term is defined in the OBCA) of our shareholders.

The Manager shall not be liable in any way for any default, failure or defect in any of our investments if it has satisfied the duties and standard of care, diligence and skill set forth in the Management and Mortgage Services Agreement. However, the Manager shall be liable to us for any loss, damage, claim, cost charge, expense or liability resulting from the Manager's willful misconduct, bad faith, negligence or disregard by the Manager of the Manager's duties or standard of care, diligence and skill prescribed by the Management and Mortgage Services Agreement or a material breach or default of the Manager's obligations under the Management and Mortgage Services Agreement.

In addition, whether the claim be in tort, contract or otherwise, the Manager will only be liable to us for actual damages incurred by us and only to the extent that such actual damages are equal to or less than the amount paid to the Manager under the Management and Mortgage Services Agreement and the Manager shall not be liable to us for any consequential, special, indirect, incidental, exemplary, punitive or similar damages, or lost profit or revenue, or failure to realize expected benefits, capital, revenues, income, profits or savings, relating to the provision or conduct by the Manager of its services, duties and obligations under the Management and Mortgage Services Agreement.

If, notwithstanding the provisions of the Management and Mortgage Services Agreement, the Manager or any of its directors, officers, employees, consultants or agents shall be held personally liable as such to any other person in respect of any debt, liability or obligation incurred by or on behalf of us, or, subject to the provisions of the Management and Mortgage Services Agreement, any action taken or omitted or in connection with our affairs, the Manager and its directors, officers, employees, consultants or agents shall be entitled to indemnity and reimbursement out of our property and assets to the full extent of such liability and the costs of any litigation or other proceedings in which such liability shall have been determined, including without limitation, the fees and disbursements of counsel. The Manager has agreed that it shall only look to our property and assets for satisfaction of any claims arising out of or in connection with the Management and Mortgage Services Agreement.

The Management and Mortgage Services Agreement is for an indefinite term. The Management and Mortgage Services Agreement may be terminated by either party immediately in the event of: (i) the commission by either party of any fraudulent act; (ii) either party becomes bankrupt, insolvent or makes a general assignment for the benefit of its creditors; (iii) conviction of either party for a criminal offence; (iv) conduct by either party that is materially damaging to the other party and contrary to the terms of the Management and Mortgage Services Agreement; (v) material breach of the Management and Mortgage Services Agreement by a party; (vi) material misrepresentation by a party; or (vii) material failure by a party to perform its duties as described in the Management and Mortgage Services Agreement within ten days of written notice by the other party.

The Management and Mortgage Services Agreement may also be terminated at any time by the Corporation on 30 days' written notice or at any time by mutual consent in writing. In addition, the Manager may resign and the Management and Mortgage Services Agreement may be terminated upon 60 days' notice by the Manager to the Corporation. The Management and Mortgage Services Agreement may also be terminated by the Corporation immediately in the event the Manager is unable under securities laws to act as the Corporation's investment manager, or the Corporation's mortgage administrator under the Mortgage Brokerages, Lenders and Administrators Act.

The Manager

The Manager was incorporated under the laws of Ontario on August 3, 2021. The head office of the Manager is located at 1614 Dundas Street East, Unit 103, Whitby, Ontario, L1N 8Y8 and the registered office of the Manager is located at 1614 Dundas Street East, Unit 103, Whitby, Ontario, L1N 8Y8.

The Manager is not a reporting issuer in any jurisdiction and none of its securities are listed for trading on any Stock Exchange.

The Manager is not an investment fund manager registered in Ontario. If and when required, the Manager will seek and obtain the requisite registrations in the appropriate jurisdictions.

The Manager is not at arm's length with the Corporation in that all of the shareholders, directors and officers of the Manager, are also directly or indirectly common shareholders of the MIC, and also directors and/or officers of the MIC. This is also a form of a conflict of interest. Conflicts of interest exist, and others may arise, between and among the directors and officers and shareholders of the Manager and the Corporation and their associates and affiliates. There is no assurance that any conflicts of interest that may arise will be resolved in a manner most favorable to Subscribers. Persons considering a purchase of Preferred Shares pursuant to this Offering must rely on the judgment and good faith of the directors, officers and employees of the Manager and the Corporation in resolving such conflicts of interest as may arise. By way of an example some of the controlling common shareholders, directors and officers of the Manager are also the controlling common shareholders, directors and officers of the MIC and may procure or underwrite mortgage loans or investments where the fees, such as the lender fees, that the Manager will keep, can influence their decision to proceed with the said mortgage or investment. See "ITEM 3 - Interests of Directors, Management, Promoters and Principal Holders".

The Manager has also been appointed as our investment manager, to provide, or cause to be provided through qualified service providers, various services related to our business, operations and affairs and with full authority and responsibility to provide or cause to be provided to us the Manager Services (as defined below). We have delegated to the Manager, in its capacity as our investment manager, the power and authority to act in our name and on our behalf for the sole purpose of performing the Manager Services.

The Manager has agreed to provide, or cause to be provided through qualified service providers, the following investment manager administration services (the "**Manager Services**"):

- liaising on our behalf with dealers, institutions and investors regarding sales of securities of the Corporation and responding to shareholders' enquiries;
- selecting, retaining, supervising, removing and conducting relations on our behalf with service providers engaged in our operations, and any replacements, including without limitation, accountants, lawyers, transfer agents, trustees, brokers, administrators and other service providers and professional advisers;
- maintaining our books and financial records;
- arranging for and directing the preparation and dissemination of reports and other information required to be sent to our shareholders, including periodic shareholder statements, annual tax information and all other communications with our shareholders as required from time to time, and all documentation relating to, and arranging for, shareholders meetings, if any;
- arranging for and directing the processing of the payment of dividends or interest and distributions by us to our shareholders;

- arranging for and directing registrar and transfer agent services for us, including without limitation, the processing and registration of subscriptions for, and transfers and redemptions of, our shares, the maintenance of our shareholders registers and direct registration system, and transaction reporting as required;
- coordinating and directing the preparation of our financial statements and other disclosure and reporting documents and regulatory filings;
- administering our day-to-day affairs and providing, or arranging for, all necessary personnel, office facilities, telephone, fax and other communication services, office supplies, banking, custodian and bookkeeping and internal accounting and audit services, including preparation of tax returns, annual returns, corporate and regulatory filings and other usual and ordinary office services;
- if advisable, acting on our behalf as our nominee or agent in connection with the Manager Services, including the execution of agreements or other instruments in writing for or on our behalf; and
- performing such other services or acts as shall be reasonably necessary or ancillary to the matters set out above or as we may from time to time reasonably request.

In consideration for providing the Manager Services and any other services under the Management and Mortgage Services Agreement, the Manager is entitled to a fee and will retain a priority allocation of the interest or other distributions accruing and payable on all investments acquired by us, in amounts of up to and equal to 2.0% per annum of the outstanding aggregate principal balance of all mortgage loans, or the outstanding aggregate principal balance of our percentage interest therein, the assets under management and/or the book value of our investments other than mortgages, calculated monthly on the first day of the month at the rate of 0.167% and payable in monthly installments on the last day of each month and prorated for any partial month. Should the Manager delegate its services, it shall decide between them how the fees hereto in this paragraph and in those outlined above and below to the Manager are to be divided.

The Manager is entitled to deduct any amounts deductible under the Management and Mortgage Services Agreement, including its interest allocations, before distributing amounts to us under the Management and Mortgage Services Agreement. In addition, the Manager is entitled to retain any overnight float interest on all accounts maintained by it and all lender fees (the fees that may be charged to the borrower for extending the loan under the mortgage agreement and paid from the advance or upfront by the borrower at the first advance of the mortgage loan or otherwise), origination fees (the fees that may be charged to the borrower at the time a mortgage commitment is issued for the work necessitated by the underwriting), commitment fees (the fees that may be charged to the borrower in order to provide a mortgage commitment and hold the offer for a period of time until accepted or advanced), renewal fees (the fees that may be charged to the borrower to negotiate and prepare any renewal terms of an existing mortgage loan), extension fees (the fees that may be charged to the borrower to process any notices or accounting changes to grant an extension on a mortgage payment or payout), advance date fees (the fees that may be charged to the borrower for varying a date a payment is due for a one-off incident upon request), discharge fees (the fees that may be charged to the borrower for preparing payout statements and discharge documents as well as attending to execution and registration of same to remove any security from title), late payment fees (the fees that may be charged to the borrower for following up on mortgage payments or payouts that are late including any notices and letters, and to cover other costs associated with same), participation fees (the fees that may be charged to the borrower for having more than one mortgage or product or for lines of credits that may have not been accessed by the borrower but remained opened for their use), NSF charges (the fees that may be charged to the borrower for the bank charges associated with any returned payments for insufficient funds or other reasons and for collecting and addressing same with the borrower), administration and similar or other fees generated on the investments acquired by us (the fees that the Manager may generate from the assets and capital managed that are other than the returns on investment), all of which fees are and remain the sole property of the Manager, and to the extent that they are recovered from the borrowers or investments.

Under the Management and Mortgage Services Agreement, the Manager is responsible for all of its internal costs including, without limitation, employment expenses of employees hired to work exclusively for the Manager and not engaged in providing the Manager Services, corporate taxes, legal, accounting, director, officer and audit fees and expenses, and all out of pocket costs and expenses incurred in connection with its organization, maintenance and licensing.

2.3 Development of the Business

The Corporation is in its FIRST years of operations. The Corporation's initial business will be limited to investing the net proceeds of this Offering in mortgage investments in accordance with the policies and guidelines set out under "*ITEM 2 - Business of the Corporation – Our Business*".

2.4 Long Term Objectives

The Corporation's long-term objective is to provide holders of Preferred Shares with sustainable income while preserving capital for distribution or re-investment. Over the long term, as a mortgage investment corporation, the Corporation intends to, raise investment capital, and invest substantially all of its capital in Canadian mortgages, except for small residual amounts of capital maintained in short term CDIC insured deposits awaiting mortgage placement. Most of the mortgages the Corporation intends to invest in will be short term mortgages secured by residential real estate property in Canada. As its capital base expands, the Corporation may place some of its capital in longer term mortgages. From time to time, the Corporation may also invest in commercial mortgages. The Corporation anticipates investing in mortgages in select urban and rural areas in Ontario but may expand its business into other provinces.

2.5 Short Term Objectives

The Corporation's objective is to complete the maximum Offering and invest it pursuant to the Tax Act's MIC criteria and in accordance with the policies and guidelines set out under "*ITEM 2 - Business of the Corporation – Our Business*", with the intent of paying dividends to its shareholders. The Corporation will make every effort to calculate dividends monthly as and when net income allows for it, and then payout these dividends quarterly if possible. In the future, the Corporation may calculate and pay dividends on the Shares on a quarterly or monthly basis. Dividends, if any will therefore be paid quarterly or monthly within 15 days after each calendar quarter or month, respectively, once declared.

2.6 Insufficient Proceeds

The Corporation will only invest amounts available to it raised under this Offering and otherwise. The proceeds of this Offering may not be sufficient to accomplish all of the Corporation's proposed objectives. There can be no assurance that alternative financing will be available.

2.7 Material Agreements

The only material agreements to which the Corporation is a party, or that it has entered into with a related party, is the Management and Mortgage Services Agreement entered into with the Manager. For more information on this agreement, please see "*ITEM 2 - Business of the Corporation - Management and Mortgage Services Agreement*".

A description of the terms and conditions of each of the Preferred Shares as they will exist upon a closing of the Offering is set forth below. Funds received from the sale of Preferred Shares will be combined into one pool of funds for investment purposes and will be used to create one portfolio of investments owned by the Corporation.

For the purposes hereof, "**Redemption Price**" of a Preferred Share at any time means the price paid for such Preferred Share at the time the Preferred Share was issued from the treasury of the Corporation.

The Corporation is authorized to issue an unlimited number of Preferred Shares having attached thereto the following rights, privileges, restrictions and conditions:

Voting

The holders of Preferred Shares shall **not** be entitled to notice of or to attend or vote at meetings of the shareholders of the Corporation.

Dividend Rights

The holders of Preferred Shares shall be entitled to receive in each fiscal year out of any or all profits or surplus available, if, as and when declared by the directors of the Corporation, an initial non-cumulative dividend (the "**Initial Dividend**") at a rate per annum of the Redemption Price of the Preferred Shares (provided that such dividend shall be prorated where any Preferred Shares are not outstanding for an entire fiscal year). In any fiscal year, following the payment of the Initial Dividend to the holders of the Preferred Shares and the payment of dividends in a like amount per share to the holders of the Common Shares, the Preferred Shares shall be entitled to participate *pari passu* with the holders of the Common Shares in any further payment of dividends of the Corporation for that fiscal year. The Preferred Shares shall rank in priority to the Common Shares in regards to the initial payment of dividends in any fiscal year.

The directors of the Corporation shall be entitled to declare all or part of such dividends in any fiscal year.

No dividends shall be declared on the Common Shares prior to the full amount of such dividends having been declared and paid to the holders of Preferred Shares as provided for above.

Subject to such working capital or reserve requirements as the directors of the Corporation determine are necessary or desirable from time to time to meet the current and future expenses, liabilities, commitments and obligations of the Corporation and for the conduct, promotion and protection of the business and activities of the Corporation, its assets and shareholders, the Corporation currently intends to distribute as dividends to its shareholders substantially all of its net income and net realized capital gains. See "*ITEM 6 – Income Tax Consequences*".

Liquidation

In the event of the liquidation, dissolution or winding-up of the Corporation or any other distribution of the assets of the Corporation among its shareholders for the purpose of winding-up its affairs, the holders of each Preferred Share shall be entitled to receive an amount equal to the Redemption Price for that Preferred Share plus all declared and unpaid dividends before any amount shall be paid or any property or assets of the Corporation are distributed to the holders of Common Shares. After payment to the holders of Preferred Shares of the amount so payable to them, they shall not be entitled to share in any further distribution of the assets of the Corporation. If there are insufficient amounts to pay to the holders of Preferred Shares the full amount which they are entitled to receive on the distribution of the assets of the Corporation, all such holders shall share in the distribution on a pro rata basis in proportion to the aggregate amount due to each of them.

Redemption by the Corporation

The OBCA does not permit the Corporation to make any payment to purchase or redeem the Preferred Shares issued by it if there are reasonable grounds for believing that: (a) the Corporation is, or after the payment, would be unable to pay its liabilities as they become due; or (b) after the payment, the realizable value of the Corporation's assets would be less than the aggregate of: (i) its liabilities; and (ii) the amount that would be required to pay the holders of shares that have a right to be paid, on a redemption or in a liquidation, rateably with or before the holders of the shares to be purchased or redeemed, to the extent the amount has not been included in its liabilities.

Subject to the OBCA, the Corporation may redeem all or any part of the then outstanding Preferred Shares upon written notice given by the Corporation to the holders of all Preferred Shares to be redeemed, specifying that such shares are to be redeemed upon payment to each holder of Preferred Shares of the Redemption Price for each Preferred Share held by such holder as indicated on the Corporation's records, plus the pro rata share of any unpaid distributions thereon which have been declared payable but remain unpaid as at the time of calculation of the Redemption Price to the extent same are not otherwise included in the Redemption Price of the share(s) to be retracted.

The written notice from the Corporation shall at a minimum specify the intent to redeem, the date on which the redemption is to take place, which date shall be not less than 21 nor more than 180 days from the date of the written notice, if part only of the Preferred Shares held by the person to whom such notice is addressed

are to be redeemed, which shares are to be redeemed as selected by the directors of the Corporation in their sole discretion, and, if a certificate(s) representing the Preferred Shares to be redeemed has been issued, that such original certificate(s) is to be surrendered to the Corporation prior to the redemption date and the identity and location of the person to whom such certificate(s) is to be sent or delivered for surrender.

From and after the redemption date, the holder of the Preferred Shares to be redeemed as aforesaid, shall thereafter cease to have any rights with respect to the Preferred Shares to be redeemed other than the right to receive the Redemption Price therefor.

On the redemption date, provided that any existing original certificates representing the Preferred Shares called for redemption have been surrendered to the Corporation as specified in the written notice, or after the redemption date upon surrender to the Corporation of such original certificates, the Corporation shall pay or cause to be paid to or to the order of the registered holder of the Preferred Shares to be redeemed the Redemption Price, and such Preferred Shares shall thereupon be redeemed.

The Redemption Price payable in respect of the shares called for redemption shall be paid by direct deposit or cheque, drawn on a Canadian chartered bank or trust company in lawful money of Canada, payable at par to, or deposited to the account of, the registered holder of the shares called for redemption. Payments of the Redemption Price made by the Corporation are conclusively deemed to have been made when deposited by direct deposit or upon the mailing of a cheque in a postage pre-paid envelope addressed to the payee at the last address of the payee shown in the records of the Corporation or the address of the payee provided to the Corporation by the registered holder at the time, unless such cheque is dishonored upon presentment. Upon such payment as set out above, the Corporation and its directors, officers, manager and employees shall be discharged from all liability to the former holder in respect of the shares so redeemed.

All Preferred Shares redeemed by the Corporation pursuant to this section shall be cancelled and such Preferred Shares shall no longer be outstanding and shall not be re-issued.

Retraction at the Option of the Holder

The OBCA does not permit the Corporation to make any payment to purchase or redeem the Preferred Shares issued by it if there are reasonable grounds for believing that: (a) the Corporation is, or after the payment, would be unable to pay its liabilities as they become due; or (b) after the payment, the realizable value of the Corporation's assets would be less than the aggregate of: (i) its liabilities; and (ii) the amount that would be required to pay the holders of shares that have a right to be paid, on a redemption or in a liquidation, rateably with or before the holders of the shares to be purchased or redeemed, to the extent the amount has not been included in its liabilities.

Subject to the OBCA and upon compliance with the provisions hereof, all applicable laws and any applicable provisions of our articles of incorporation, by giving a duly completed and properly executed written notice to the Corporation (the "**Retraction Notice**"), any holder of Preferred Shares shall be entitled, at such holder's option, and at any time and from time to time, to have all or any part of the Preferred Shares originally held by such holder, purchased by the Corporation (the "**Retraction Right**") for an amount equal to the Redemption Price after the first twelve (12) months from the date such Preferred Shares were issued. Should the Corporation waive the minimum twelve (12) month hold period an early retraction redemption fee shall apply being 5.0% of the Redemption Price. Following which, an early retraction redemption fee shall apply being 1.0% of the Redemption Price if retracted after the first twelve (12) months but prior to the first twenty-four (24) months. No redemption fees shall apply if retracted after the first twenty-four (24) months. However, the board of directors, in their sole and absolute discretion may waive or reduce any redemption fees or remove any restrictions.

Upon acceptance by the directors of the Corporation of the Retraction Notice and the retraction request, the Retraction Notice will thereafter be irrevocable by the holder without the consent of the Corporation and the Preferred Shares specified therein (the "**Retraction Shares**") shall be considered to be tendered for retraction as at the acceptance date (the "**Notice Date**"). The holder of the Retraction Shares shall continue

to have all of the holder's rights as a shareholder in respect of each Retraction Share until the Retraction Payment (as defined below) for that Retraction Share has been paid in full.

The payment for a retraction of Preferred Shares will be the Redemption Price of the Retraction Share, calculated as at the end of business on the Business Day immediately preceding the Retraction Date (as defined below), plus the pro rata share of any dividend distributions declared on such Retraction Share which have accrued up to and including the Retraction Date, to the extent same are not included in the calculation of the Redemption Price and remain unpaid (the "**Retraction Payment**") less the redemption fees if any.

The holders of Preferred Shares may retract their shares, without penalty or reduction, at any time after the date that is two years from the date of issuance of such Preferred Shares.

Subject to the limitations set out herein, on the last day of the calendar month (or the next following Business Day if the last day of the calendar month falls on a day that is not a Business Day) which is 3 full months following the month in which the Notice Date falls or such earlier date as determined by the directors of the Corporation in their sole discretion (the "**Retraction Date**"), the Corporation will redeem the Retraction Shares. Subject to the directors of the Corporation right to extend the time for payment of any Retraction Payment if in their sole discretion the directors of the Corporation determine that such payment would be prejudicial to the interests of the remaining shareholders of the Corporation, or that in the same calendar quarter the redemption limit of redemption requests totaling nine percent (9%) of the Preferred Shares outstanding has been reached, and any limitations on the payment of the Retraction Payment set out in these redemption provisions, the Retraction Payment, less any reductions, amounts, redemption fees or other fees payable in respect of the Retraction Share, will be paid on or within 10 Business Days of the Retraction Date.

Notwithstanding any other provision herein, the aggregate amount of the Retraction Payments that the Corporation is obliged to make on or in respect of each Retraction Date is limited to an amount that is equal to 85% of the aggregate Redemption Price of all Preferred Shares to be retracted calculated as at the first day of the month in which the Retraction Date falls. Such aggregate amount of Retraction Payments includes amounts payable to shareholders who have previously tendered their Preferred Shares for retraction and the Retraction Payment for which has not been paid in full as of that Retraction Date. Retraction Shares will be retracted and Retraction Payments will be paid in order of receipt of Retraction Notices or *pari passu* if, in their sole discretion, the directors of the Corporation determine that *pari passu* would be better suited to the interests of the shareholders or the operations of the Corporation, on the next following Retraction Dates, or such earlier dates as determined by the directors of the Corporation in their sole discretion, until the Retraction Payment for such shares has been paid in full.

Notwithstanding any other provision herein, the directors of the Corporation may, in their sole discretion at any time and from time to time suspend the retraction feature in respect of any or all of the Preferred Shares for such period of time as the directors of the Corporation determine, in their sole discretion, that: (a) conditions exist which render imprudent or impractical the Corporation's ability to obtain the cash on hand required to make any or all Retraction Payments; or (b) the suspension is in the best interests of the shareholders of the Corporation as a whole; or (c) the retraction would disqualify HARVEST as a mortgage investment corporation under the Tax Act. The suspension may, in the sole discretion of the directors of the Corporation, apply to Preferred Shares tendered for retraction prior to the suspension but as to which payment in full has not been made, as well as to Preferred Shares tendered for retraction while the suspension is in effect. Any declaration of suspension by the directors of the Corporation is conclusive.

A shareholder may, with the consent of the Corporation, which may be given or withheld in its sole discretion, withdraw its retraction request and revoke its Retraction Notice by providing written notice to the Corporation.

Notwithstanding any other provision herein, the directors of the Corporation may, but are not obliged to, in their sole discretion at any time and from time to time waive or alter the amount or payment of a fee or

discount, or the reduction or limitation of any Retraction Payment, on any terms and conditions they so determine for any particular retraction request.

The amount payable in respect of Retraction Shares will be paid by direct deposit or cheque, drawn on a Canadian chartered bank or trust company in lawful money of Canada, payable at par to, or deposited to the account of, the registered holder of such shares. Such payments made by the Corporation are conclusively deemed to have been made when deposited by direct deposit or upon the mailing of a cheque in a postage pre-paid envelope addressed to the payee at the last address of the payee shown in the records of the Corporation or the address of the payee provided to the Corporation by the registered holder at the time, unless such cheque is dishonored upon presentment. Upon such payment as set out above, the Corporation and its directors, officers, manager and employees shall be discharged from all liability to the former holder in respect of the shares so retracted.

Notwithstanding any other provision herein, the directors of the Corporation will not approve any retraction of any Preferred Shares that would result in the Corporation ceasing to meet the qualifications of a MIC (see "*ITEM 2 - Our Business – Investment Guidelines*" above). Furthermore, substantial shareholders holding more than 15% of the total number of Preferred Shares outstanding, will be limited to retracting no more than 20% every six months from the Notice Date.

Constraints on Transferability

Paragraph 130.1(6)(d) of the Tax Act stipulates that to qualify as a MIC, a corporation must have at least 20 shareholders and no one shareholder may be a Specified Shareholder, as such term is defined in the Tax Act, of the corporation. The Tax Act states that a trust governed by a registered pension plan or a deferred profit sharing plan is counted as four shareholders for purposes of determining the number of shareholders and one shareholder for purposes of determining if a shareholder is a Specified Shareholder. **The board of directors intend to refuse registration of an allotment or any transfer of shares, including to the Corporation on a retraction or redemption or in connection with an exchange or conversion, which would result in the Corporation ceasing to meet the qualifications of a MIC.**

5.2 Subscription Procedure

Subscribers who wish to purchase Preferred Shares will be required to enter into a Subscription Agreement with the Corporation by completing and delivering the Subscription Agreement and related documentation to the Corporation. In the case of purchases transacted by a Selling Agent, if any, a subscription agreement will be provided and signed by and with the Selling Agent. The Subscription Agreement contains, among other things, representations and warranties required to be made by the subscriber that it is duly authorized to purchase the Preferred Shares, that it is purchasing Preferred Shares for investment and not with a view for resale, and as to its corporate status or other qualifications to purchase Preferred Shares on a "private placement" basis. Reference is made to the Subscription Agreement and related documentation, copies of which are attached hereto as Schedule "A", for the specific terms of these representations, warranties and conditions.

Preferred Shares may be purchased in the following manner:

Exemptions from Prospectus and Registration Requirements

The Preferred Shares are being offered in the Selling Jurisdictions pursuant to exemptions under Applicable Securities Laws. Such exemptions relieve the Corporation from provisions under Applicable Securities Laws requiring the Corporation to file a prospectus and therefore Subscribers do not receive the benefits associated with a subscription for securities issued pursuant to a filed prospectus, including the review of material by a securities commission or similar authority.

The sale of Preferred Shares pursuant to this Offering Memorandum is being made in the Selling Jurisdictions under certain statutory exemptions from the prospectus requirements set out in NI 45-106. Specifically, the sale of Preferred Shares is being made pursuant to Section 2.9 of NI 45-106 ("**Offering Memorandum Exemption**"), Sections 2.5 or 2.6 of NI 45-106 ("**Family, Friends and Business Associates**"), Section 2.10 of NI 45-106 ("**Minimum Amount Investment**") and Section 2.3 of NI 45-106 and Section 73.3 of the *Securities Act* (Ontario) ("**Accredited Investor Exemption**"). **Please carefully review the accompanying Subscription Agreement to determine the prospectus exemption requirements that apply to you.**

Should the Corporation engage the services of a registered dealer such as an exempt market dealer (an "EMD"), then it shall enter into an Agency Agreement with the agent, the material terms of which are described therein, shall include that the agent has agreed to use its commercially reasonable efforts to sell the Preferred Shares under the offering to qualified purchasers in one or more of the Selling Jurisdictions. The agent will be an exempt market dealer registered in provinces for the jurisdictions in which the Preferred Shares are sold.

Other Jurisdictions

The sale of Preferred Shares pursuant to this Offering Memorandum may also be made in other jurisdictions provided that the Subscriber provides to the Corporation the full particulars of the exemption from the registration and prospectus requirements under applicable securities legislation being relied on and evidence of the Subscriber's qualifications thereunder.

Each Subscriber is urged to consult with his own legal adviser as to the details of the statutory exemption being relied upon and the consequences of purchasing securities pursuant to such exemption.

ITEM 6 INCOME TAX CONSEQUENCES

The following is a summary of the principal Canadian federal income tax consequences of acquiring, holding and disposing of the Preferred Shares (the "**Shares**") by a subscriber who, at all relevant times, is a resident of Canada, deals at arm's length, and is not affiliated, with the Corporation, and who acquires and

holds the Shares as capital property, all within the meaning of the Tax Act (a "holder"). Generally, the Shares will be considered capital property to a holder provided such holder does not hold the Shares in the course of carrying on business and has not acquired them in one or more transactions considered to be an adventure in the nature of trade. Holders who may not hold the Shares as capital property can elect, in certain circumstances, to have such property treated as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act.

This summary is not applicable to any holder of Shares: (i) that is a "specified financial institution" or a "financial institution", both as defined in the Tax Act; (ii) an interest in which constitutes a "tax shelter investment" for the purposes of the Tax Act; (iii) who reports its Canadian tax results in a currency other than Canadian dollars; or (iv) that has entered into a "derivative forward agreement" or a "synthetic disposition arrangement", each as defined for purposes of the Tax Act, with respect to the Preferred Shares.

This summary is based upon the facts set out in this Offering Memorandum, the current provisions of the Tax Act and the regulations thereunder, all specific proposals (the "**Tax Proposals**") to amend the Tax Act and the regulations thereunder publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof and the current published administrative practices of the Canada Revenue Agency ("**CRA**"). This summary assumes that the Tax Proposals will be enacted as currently proposed but does not take into account or anticipate any other changes in law whether by legislative, governmental or judicial action and does not take into account tax legislation or considerations of any province, territory or foreign jurisdiction.

The summary contained in this section is of a general nature only and is not exhaustive of all possible Canadian federal income tax consequences. This summary is not intended to be and should not be interpreted as legal or tax advice to any particular holder. Holders should consult with their own tax advisor regarding the income tax consequences of acquiring, holding and disposing of the Shares including the application and effect of the income and other tax laws of any country, province, state or local tax authority. Generally, you should consult your own professional advisers to obtain advice on the income tax consequences that apply to you.

This summary is based on the assumption that the Corporation has and will meet certain conditions which are imposed by the Tax Act to qualify as a "mortgage investment corporation" ("**MIC**") at all relevant times. These conditions will generally be satisfied if, throughout a taxation year of the Corporation; or, with respect to the number of shareholders in the Corporation's first taxation year, at the end of such first taxation year:

- (a) the Corporation is a Canadian corporation as defined in the Tax Act;
- (b) the Corporation's only undertaking was the investing of funds, and it did not manage or develop any real property;
- (c) no debts were owing to the Corporation by non-residents of Canada, except any such debts that were secured on real property situated in Canada;
- (d) the Corporation did not own shares of corporations not resident in Canada;
- (e) the Corporation did not hold real property situated outside of Canada;
- (f) no debts were owing to the Corporation that were secured on real property situated outside of Canada;
- (g) the cost amount of the Corporation's property consisting of mortgages on "houses" or on property included within a "housing project" (as those terms are defined in section 2 of the *National Housing Act* (Canada) and in respect of a housing project, as such definition read on June 16, 1999), deposits with a bank or other corporations whose deposits are insured by the Canada Deposit Insurance Corporation or a credit union, together with cash on hand (collectively, the "Qualifying Property"), was at least 50% of the cost amount to it of all of its property. The *National Housing Act* (Canada) defines house as a building or movable

structure, or any part thereof, that is intended for human habitation and contains not more than two family housing units, together with any interest in land appurtenant to the building, movable structure or part thereof; and also defines housing project as:

- (i) any building or movable structure, or any part thereof, that is intended for human habitation;
 - (ii) any property that is intended to be improved, converted or developed to provide housing accommodation or services in support of housing accommodation; or
 - (iii) any property that is associated with housing accommodation, including, without limiting the generality of the foregoing, land, buildings and movable structures, and public, recreational, commercial, institutional and parking facilities.
- (h) the cost amount of real property (including leasehold interests therein but excluding real property acquired as a consequence of foreclosure or defaults on a mortgage held by the Corporation) owned by the Corporation did not exceed 25% of the cost amount to it of all of its property;
- (i) the Corporation had 20 or more shareholders and no person would have held more than 25% of the issued shares of any class of the capital stock of the Corporation or been a specified shareholder (as such term is defined for purposes of subsection 130.1(6) of the Tax Act) of the Corporation;
- (j) holders of any preferred shares had a right, after payment of their dividends, and payment of dividends in a like amount per share to the holders of common shares, to participate *pari passu* with the holders of common shares in any further payment of dividends; and
- (k) where at any time in the year (or at the end of the year, as the case may be) the cost amount to it of its Qualifying Property was less than $\frac{2}{3}$ of the cost amount to it of all of its property, the Corporation's liabilities did not exceed three times the amount by which the cost amount to it of all of its property exceeded its liabilities, or, where throughout the taxation year (or at the end of the year, as the case may be) the cost amount to it of its Qualifying Property equaled or exceeded $\frac{2}{3}$ of the cost amount of all of its property, the Corporation's liabilities did not exceed five times the amount by which the cost amount to it of all of its property exceeded its liabilities.

It has been assumed for the purpose of this summary that the Corporation will qualify as a MIC in accordance with conditions prescribed in the Tax Act at all times which are relevant to the opinions expressed herein. Based upon certain representations by management of the Corporation as to the nature, location and cost amounts of the Corporation's assets and liabilities, including the composition and cost of its mortgage portfolio, as to the shareholders of the Corporation and as to the range of activities which the Corporation will undertake in the course of carrying on its mortgage investment business (the "**Representations**"), it is anticipated that the Corporation will meet the requirements for qualification as a "mortgage investment corporation" under the Tax Act at the closing of this Offering and will continue to so qualify thereafter provided the Representations continue to be true throughout each of the Corporation's subsequent taxation years. Purchasers are cautioned that the Corporation must meet the requirements under the Tax Act to be a "mortgage investment corporation" on a continuous basis throughout each taxation year in order to avail itself of the provisions of the Tax Act as to the taxation of dividends outlined herein. Management of the Corporation expects that the Representations will continue to be true throughout each of the Corporation's subsequent taxation years such that the Corporation will continue to so qualify. **If the Corporation were not to qualify as a MIC, the income tax consequences would be materially different from those described below.**

Taxation of the Corporation

The Corporation will, in computing its income, generally be entitled to deduct the full amount of all taxable dividends (other than capital gains dividends) which it pays during the year or within 90 days after the end of the year to the extent that such dividends were not deductible by the Corporation in computing its income for the preceding year. In addition, the Corporation may generally declare a capital gains dividend in an amount equal to the gross amount of its capital gains and is entitled to deduct, in computing its income for the year, one-half (1/2) of its capital gains dividend paid during the period commencing 91 days after the commencement of the year and ending 90 days after the end of the year. The Corporation intends to pay taxable dividends and capital gains dividends each year in sufficient amounts to reduce its Part I income tax liability to nil.

Taxation of shareholders

Taxable dividends (other than capital gains dividends) which are paid by the Corporation on the Shares will be included in the holder's income as interest income. **The normal gross-up and dividend tax credit rules will not apply to dividends paid by the Corporation to an individual and holders that are corporations will not be entitled to deduct the amount of dividends paid by the Corporation from their taxable income.** Capital gains dividends will be treated as a capital gain realized by the holder and will be subject to the general rules relating to the taxation of capital gains described in more detail below.

The cost to a holder of Shares acquired pursuant to this Offering will equal the purchase price of the Shares plus the amount of any other reasonable acquisition costs incurred in connection therewith. This cost must be averaged with the cost of all other Shares held by the holder to determine the adjusted cost base of each Share.

A disposition or a deemed disposition of the Shares (other than to the Corporation) will result in a holder realizing a capital gain (or capital loss) to the extent that the proceeds of disposition of the Shares exceed (or are exceeded by) the adjusted cost base of the Shares and reasonable disposition costs, according to the usual rules contained in the Tax Act. Amounts paid by the Corporation on the redemption or acquisition by it of the Shares, up to the paid-up capital thereof, will be treated as proceeds of disposition. Any amount paid by the Corporation on the redemption or acquisition of the Shares which is in excess of the paid-up capital of the Shares will be deemed to be a dividend and will generally be included in the income of a holder of the Shares as interest (and will be deductible by the Corporation) in accordance with the rules described above.

One-half (1/2) of any capital gain realized by a holder (including capital gains deemed to be realized as a result of a receipt of a capital gains dividend) will be included in the holder's income under the Tax Act as a taxable capital gain. Subject to certain specific rules contained in the Tax Act, one-half (1/2) of any capital loss realized in a taxation year may be deducted against any taxable capital gains realized by the holder in the year of disposition. The excess of capital losses over capital gains in the year of disposition may generally be deducted against capital gains in the three preceding taxation years or in any subsequent taxation year, subject to the more specific rules contained in the Tax Act.

Taxable capital gains realized by a holder that is an individual, including certain trusts, may give rise to alternative minimum tax depending upon the holder's circumstances.

A holder that is a "Canadian-controlled private corporation" (as defined in the Tax Act) may be liable to pay an additional refundable tax of 6 2/3 % on certain investment income, including amounts in respect of interest and taxable capital gains (from taxable or capital gains dividends). The 6 2/3% tax is to be added to such corporation's refundable dividend tax on hand account and will be eligible for refund at a rate of \$1.00 for every \$3.00 of taxable dividends paid by the corporation.

Eligibility for Investment by Deferred Income Plans

The Corporation confirms that the Shares may be qualified investments for trusts governed by registered retirement savings plans ("RRSPs"), registered education savings plans, deferred profit sharing plans,

registered retirement income funds ("RRIFs"), registered disability savings plans, or tax-free savings accounts ("TFASAs") (collectively, "**Deferred Income Plans**") at a particular time if the Corporation qualifies as a MIC under the Tax Act and if throughout the calendar year in which the particular time occurs, the Corporation does not hold as part of its property any indebtedness, whether by way of mortgage or otherwise, of a person who is an annuitant, a beneficiary, an employer, or a subscriber under, or a holder of, the relevant Deferred Income Plan or any other person who does not deal at arm's length with that person. Deferred Income Plans will generally not be liable for tax in respect of any dividends received from the Corporation or on any capital gain realized on the disposition of the Shares or with respect to capital gains dividends. Subscribers can also speak to their employer, administrator or trustee of their individual pension plan ("IPP") about purchasing the Corporation's Preferred Shares.

Notwithstanding the fact that the Shares may be qualified investments for Deferred Income Plans, the holder of a TFSA, or the annuitant of a RRSP, or a RRIF (a "**Controlling Individual**"), which holds Shares, will be subject to a penalty tax if the Shares held in the TFSA, RRSP, or RRIF are a "prohibited investment", as defined in the Tax Act for the TFSA, RRSP, or RRIF. The Shares will generally be a "prohibited investment" if the Controlling Individual (i) does not deal at arm's length with HARVEST for the purposes of the Tax Act or (ii) has a "significant interest" (within the meaning of the Tax Act, usually 10%) in HARVEST. Penalties are severe and could mean 100% or more of the amount invested (the amount paid for the Shares).

The Corporation advises that prospective Subscribers should consult with their own independent professional legal, tax, investment and financial advisors before purchasing Preferred Shares in order to determine the appropriateness of this investment in relation to their financial and investment objectives and in relation to the tax consequences of any such investment through any Deferred Income Plans and should also consult with their advisors as to the eligibility to purchase Shares through their Individual Pension Plans ("IPPs"). The Corporation does not provide advice or opinions on an IPP's eligibility to invest in the MIC. Subscribers are responsible for being made aware of their IPP's restrictions, such as that investments should not be made in the securities of the pension plan sponsor, margin accounts are not permitted, individual securities may not exceed 10% of the book value of the fund at the time the security is acquired, and that there are "connected person" considerations as well.

If the Corporation fails to qualify as a MIC at any time in a taxation year, the Shares may cease to be qualified investments for Deferred Income Plans. When a Deferred Income Plan acquires or holds a non-qualified investment, significant penalty taxes may arise to the Deferred Income Plan and/or the Controlling Individual in respect of such plan.

ITEM 7 COMPENSATION PAID TO SELLERS AND FINDERS

As of the date of this Offering Memorandum the Corporation has NOT retained the services of a selling agent or registered dealer, such as an exempt market dealer ("EMD") in any of the Selling Jurisdictions, and thus the Corporation is not currently bound to an Agency Agreement. In the event the Corporation retains Selling Agents they will agree to use their commercially reasonable efforts to sell the Preferred Shares under the offering to qualified purchasers in one or more of the Selling Jurisdictions, pursuant to an Agency Agreement.

For its services, the Corporation will agree to pay to the Selling Agents a combination of a onetime onboarding fee, and/or a fixed monthly fee, and/or a selling commission on Preferred Shares subscribed through the Selling Agents, for all EMD services. The selling commission could be up to five percent (5.00%) of the subscription price.

The Selling Agents may form a sub-agency group that includes other qualified dealers lawfully authorized to sell the Preferred Shares in one or more of the Selling Jurisdictions and will determine and pay the fees payable to such dealers. These dealers may be paid selling commissions payable to such dealers directly by the Selling Agents from the fees generated under the Agency Agreement, as well as from its general corporate funds.

To the extent permitted by law, the Corporation has agreed to indemnify and save the Selling Agents, its dealing representatives, its affiliates and its directors, officers, employees, partners, agents, advisors and shareholders harmless from and against any and all losses, claims, actions, suits, proceedings, damages, liabilities or expenses of whatsoever nature or kind (other than losses of profit in connection with the distribution of the Preferred Shares) (collectively, the "**Liabilities**") to which such persons or companies may be subject or which such persons or companies may suffer or incur, whether under the provisions of any statute or otherwise, in any way caused by, or arising directly or indirectly from or in consequence of: (i) any information or statement contained in the public record (other than any information or statement relating solely to the Selling Agents and furnished to the Corporation by the Selling Agents expressly for inclusion in the public record) which is or is alleged to be untrue or any omission or alleged omission to provide any information or state any fact the omission of which makes or is alleged to make any such information or statement untrue or misleading in light of the circumstances in which it was made; (ii) any misrepresentation or alleged misrepresentation (except a misrepresentation which is based upon information relating solely to Selling Agents and provided to the Corporation by Selling Agents expressly for inclusion in the public record) contained in the public record; (iii) any prohibition or restriction of trading in the securities of the Corporation or any prohibition or restriction affecting the distribution of the Preferred Shares imposed by any competent authority if such prohibition or restriction is based on any misrepresentation or alleged misrepresentation of a kind referred to in the Agency Agreement (other than any information or statement relating solely to the Selling Agents and furnished to the Corporation by the Selling Agents expressly for inclusion in the public record); (iv) any order made or any inquiry, investigation (whether formal or informal) or other proceeding commenced or threatened by any one or more competent authorities into the affairs of the Corporation relating to or affecting the distribution of the Preferred Shares other than any such order, inquiry, investigation or other proceeding based substantively upon the activities or alleged activities of the Selling Agents; (v) any breach of, default under or non-compliance by the Corporation with any representation, warranty, covenant, term or condition of the Agency Agreement, the Subscription Agreements or any requirement of applicable securities laws; or (vi) the exercise by any Subscriber of any contractual or statutory right of rescission in connection with the purchase of the Preferred Shares; unless such Liabilities arose as a result of the indemnified person's breach of, default under or non-compliance with any material representation, warranty, covenant, term, condition or provision of the Agency Agreement.

To the extent permitted by law, the Selling Agents will agree to indemnify and save the Corporation, its affiliates and its directors, officers, employees, partners, agents, advisors and shareholders harmless from and against any and all Liabilities to which such persons or companies may be subject or which such persons or companies may suffer or incur, whether under the provisions of any statute or otherwise, in any way caused by, or arising directly or indirectly from or in consequence of: (i) any order made or any inquiry, investigation (whether formal or informal) or other proceeding commenced or threatened by any one or more competent authorities into the affairs of the Selling Agents relating to or affecting the distribution of the Preferred Shares other than any such order, inquiry, investigation or other proceeding based substantively upon the activities or alleged activities of the Selling Agents; or (ii) any breach of, default under or non-compliance by the Selling Agents with any representation, warranty, covenant, term or condition of the Agency Agreement; unless such Liabilities arose as a result of the indemnified person's breach of, default under or non-compliance with any material representation, warranty, covenant, term, condition or provision of the Agency Agreement.

The Selling Agents may terminate its obligations under the Agency Agreement by notice in writing to the Corporation at any time if: (a) there occurs any material change or a change in any material fact which materially adversely affects or, in the sole opinion of the Selling Agents, acting reasonably, could reasonably be expected to materially adversely affect the Selling Agent's ability to perform its obligations under the Agency Agreement or to act as agent of the Corporation; (b) any enquiry, action, suit, investigation or other proceeding whether formal or informal is instituted or threatened, or any order is made by any federal, provincial or other governmental authority, commission or agency in relation to the Corporation, the directors or the Preferred Shares, which, in the sole opinion of the Selling Agents, acting

reasonably, operates to prevent or materially adversely affects the distribution of the Preferred Shares under this Offering or which, in the sole opinion of the Selling Agents, acting reasonably, would reasonably be expected to have a significant effect on the value of the Preferred Shares; (c) there is an occurrence of any nature which, in the opinion of Selling Agents, acting reasonably, seriously affects or will seriously affect the marketability of the Preferred Shares, the business of the Corporation or the ability of the Corporation to perform its obligations under the Agency Agreement; (d) the Corporation is in material breach of any material term of the Agency Agreement and has failed to cure such breach within 14 days after receiving written notice of such breach from the Selling Agents; or (e) the Selling Agents determine that any of the representations or warranties made by the Corporation in the Agency Agreement is false or has become false.

Notwithstanding the other termination provisions set out in the Agency Agreement, any party may terminate the Agency Agreement upon 30 days prior written notice to the other party or the Agency Agreement may be terminated at any time by mutual consent in writing of all of the parties.

The Corporation may in the future engage other selling agents or dealers to sell the Offering and will compensate such dealers on commercially reasonable terms. Also, the Corporation may in the future pay fees in respect of sales of its Preferred Shares at or near prevailing or customary market rates and may also reimburse or otherwise compensate on commercially reasonable terms other related entities that pay such commissions or fees.

ITEM 8 RISK FACTORS

There are certain risks inherent in an investment in the Preferred Shares and in the activities of the Corporation, which investors should carefully consider before investing in the Preferred Shares. The following is a summary only of the risk factors. Prospective investors should review the risks relating to an investment in the Preferred Shares with their legal and financial advisors.

The Corporation advises that prospective Subscribers should consult with their own independent professional legal, tax, investment and financial advisors before purchasing Preferred Shares in order to determine the appropriateness of this investment in relation to their financial and investment objectives and in relation to the tax consequences of any such investment.

In addition to the factors set forth elsewhere in this Offering Memorandum, prospective Subscribers should consider the following risks before purchasing Preferred Shares. Any or all of these risks, or other as yet unidentified risks, may have a material adverse effect on the Corporation's business, and/or the return to the Subscribers.

Investment Risk

Risks that are specific to the Preferred Shares being offered under this Offering include the following:

- (a) **Speculative Investment** – This is a speculative Offering. The purchase of Preferred Shares involves a number of risk factors and is suitable only for Subscribers who are aware of the risks inherent in the real estate industry and who have the ability and willingness to accept the risk of loss of their invested capital and who have no immediate need for liquidity. There is no assurance of any return on a Subscriber's investment.
- (b) **No Market for Preferred Shares** – There is no market through which the Preferred Shares may be sold currently. Other than in accordance with the redemption rights attached to the Preferred Shares, a Shareholder may never be able to sell his Preferred Shares and recover any part of his investment.
- (c) **Resale Restriction** – The Preferred Shares are subject to resale restrictions under Applicable Securities Laws. Such resale restrictions may never expire and Subscribers

should consult with their professional advisors in respect of such resale restrictions. See ITEM 9.

- (d) **Retraction Liquidity** – The Preferred Shares are retractable, meaning that Subscribers have the right to require the Corporation to redeem them, upon appropriate advance notice from the Subscriber to the Corporation. The Corporation provides no assurance that any Subscriber will be able to retract any or all of their Preferred Shares at any time. Retraction and redemption of the Preferred Shares is subject to the Corporation having access to sufficient excess cash, or other liquid assets, and being in compliance with applicable corporate and securities legislation, and is subject to the terms in this Offering Memorandum, all as determined solely by the Corporation. Retraction and redemption of the Preferred Shares is also subject to the discretion of the directors to act in the best interests of the MIC under the Tax Act, and may also be subject to fees and penalties. Accordingly, this investment is unsuitable for those prospective Subscribers who may require liquidity.
- (e) **Absence of Voting Rights** – The Preferred Shares being sold under this Offering do not carry voting rights, and consequently a Subscriber's investment in Preferred Shares does not carry with it any right to take part in the control or management of the Corporation's business, including the election of directors. In assessing the risks and rewards of an investment in Preferred Shares, potential Subscribers should appreciate that they are relying solely on the good faith, judgment and ability of the directors, officers and employees of the Corporation, and the Manager to make appropriate decisions with respect to the management of the Corporation, and that they will be bound by the decisions of the Corporation's and the Manager's directors, officers and employees.
- (f) **No Insurance** – The Corporation is not a member institution of the Canada Deposit Insurance Corporation and the Preferred Shares offered pursuant to this Offering Memorandum are not insured against loss through the Canada Deposit Insurance Corporation.

Issuer Risk

Risks that are specific to the Corporation include the following:

- (a) **Mortgage Investment Corporation Tax Designation** - The Corporation's directors shall use their commercially reasonable best efforts to ensure that the Corporation qualifies as a MIC pursuant to the Tax Act. There can be no assurance, however, that the Corporation will be able to meet the Tax Act's MIC qualifications at all material times. As a company qualified as a MIC, the Corporation may deduct taxable dividends it pays from its income, and the normal gross-up and dividend tax credit rules will not apply to taxable dividends paid by the Corporation on the Preferred Shares. Rather, the taxable dividends will be taxable in the hands of shareholders as if they had received an interest payment. If for any reason the Corporation fails to maintain its MIC qualification in a particular year, the taxable dividends paid by the Corporation on the Preferred Shares would cease to be deductible from the income of the Corporation for that year and the dividends it pays on the Preferred Shares would be subject to the normal gross-up and dividend tax credit rules. The Corporation would no longer be able to pay capital gains dividends. In addition, the Preferred Shares might cease to be qualified investments for Deferred Income Plans, with the effect that penalty taxes would be payable by the Controlling Individual and/or the Deferred Income Plan.
- (b) **Dilution** – The number of Preferred Shares the Corporation is authorized to issue is unlimited and the directors of the Corporation have the discretion to issue additional Preferred Shares. The proceeds of the Offering may not be sufficient to accomplish all of

the Corporation's proposed objectives. In addition to alternate financing sources, the Corporation may conduct future offerings of Preferred Shares in order to raise funds required which will result in a dilution of the interests of the Preferred Shareholders in the Corporation.

- (c) **Limited Operating History** – While individual member of the Corporation's management team have experience in mortgage investment, the Corporation was formed on August 3rd, 2021 and its history of mortgage investments is limited to 4.5 years. The Corporation's operations are subject to the risks inherent in the establishment of ongoing investment activity for fairly new entities. The Corporation cannot be certain that its investment strategy will be successful. The likelihood of success of the Corporation must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered in connection with the establishment of any mortgage investment. If the Corporation fails to address any of these risks or difficulties adequately, its investment performance will likely suffer. There is no assurance that the Corporation can operate profitably or that the Corporation will successfully implement its plans.
- (d) **Key Personnel** – The operations of the Corporation and the Manager are highly dependent upon the continued support and participation of their key personnel. The loss of their services may materially affect the timing or the ability of the Corporation to implement its business plan. The Corporation's and the Manager's management teams consist of several key people. In order to manage the Corporation and the Manager successfully in the future, it may be necessary to further strengthen their management teams. The competition for such key personnel is intense, and there can be no assurance of success in attracting, retaining, or motivating such individuals. Failure in this regard would likely have a material adverse effect on the Corporation's business, financial condition, and results of operations.
- (e) **Competition** – The Corporation competes with numerous sources of mortgage lenders, including banks, insurance companies, mortgage funds, mortgage investment corporations, and private lenders, some of which may have greater capital resources. Any unbudgeted capital improvement it is required to undertake may reduce cash available for debt servicing, operations and distributions.
- (f) **Litigation** – The Corporation may become subject to disputes with various parties with whom it maintains relationships or with whom it does business. Any such dispute could result in litigation or other legal proceedings. Whether or not any dispute actually proceeds to litigation, the Corporation may be required to devote significant resources, including management time and attention, to its successful resolution (through litigation, settlement or otherwise), which would detract from management's ability to focus on its business. Any such resolution could involve the payment of damages, costs or expenses, which may be significant. In addition, any such resolution could involve the Corporation's agreement to certain settlement terms or conditions that may restrict the operation of its business.
- (g) **Reliance on the Manager** – In accordance with the terms of the Management and Mortgage Services Agreement between the Corporation and the Manager Agreement between the Corporation and the Manager, the Manager has significant responsibility for assisting the Corporation to conduct its affairs. Any inability of the Manager to perform competently or on a timely basis may negatively affect the Corporation.
- (h) **Conflicts of Interest** – Conflicts of interest may exist, and others may arise, between and among Subscribers and the directors and officers and shareholders of the Manager and the Corporation and their associates and affiliates. Certain of the shareholders, directors and officers of the Corporation are also shareholders, directors and officers of the Manager. As the Manager is paid certain fees (as more particularly described elsewhere in this Offering

Memorandum) by the Corporation, there exists the possibility that such shareholders, officers and directors will be in a position of conflict. There is no assurance that any conflicts of interest that may arise will be resolved in a manner most favorable to Subscribers. Persons considering a purchase of Preferred Shares pursuant to this Offering must rely on the judgment and good faith of the directors, officers and employees of the Manager and the Corporation in resolving such conflicts of interest as may arise. By way of an example some of the controlling common shareholders, directors and officers of the Manager are also the controlling common shareholders, directors and officers of the MIC and may procure or underwrite mortgage loans or investments where the fees, such as the lender fees, that the Manager will keep, can influence their decision to proceed with the said mortgage or investment.

The Corporation and its shareholders are dependent in large part upon the experience and good faith of the Manager. The Manager is entitled to and do act in a similar capacity for other companies whose investment criteria may be similar to those of the Corporation.

There is a risk the Manager will not be able to originate sufficient suitable investment opportunities to keep the Corporation's funds fully invested. Also, the directors of the Manager are employed by or act in other capacities for other companies involved in mortgage and lending activities.

The Manager may act as an investment manager and/or a mortgage administrator and selling agent and may receive fees and commissions in connection with investments in entities other than the Corporation, including funds affiliated with the Corporation. As a result, these other entities may compete with the Corporation for financing, resources or otherwise. The Manager has adopted policies and procedures to identify and avoid, or address and disclose to investors, conflicts between its own interests and the interests of the Corporation and/or its shareholders, in accordance with applicable securities legislation. As part of Manager's disclosure to investors, the Manager will provide a description of all relationships it shares with the Corporation and all related or associated parties or entities.

The founders of the Corporation may directly or indirectly compete for the same mortgage lending opportunities presented to the Corporation, and lend instead of or together with the Corporation.

- (i) Lack of Separate Legal Counsel - The investors, as a group, have not been represented by separate counsel. Neither counsel for the Corporation nor counsel for the Manager have acted, or are acting, for the investors nor have conducted any investigation or review on their behalf.
- (j) Future Operations and Possible Need for Additional Funds – The Corporation requires significant funds to carry out its business plan. In the event the Corporation is unable to raise sufficient funds by this Offering and/or future and/or other debt or equity financing, the Corporation may have insufficient funds available to it to implement its business plan, and Subscribers may receive no return on their Preferred Shares. Certain uninsurable or uninsured events may also occur which can substantially reduce the ability of the Corporation to carry on business in a profitable manner, including natural or man-made disasters. The Corporation anticipates that a substantial portion of the net proceeds of this Offering will be expended by the Corporation in investing in residential mortgages, and also anticipates that the net proceeds of the Offering and anticipated cash flow from operating revenues will be sufficient to carry out the Corporation's business plan. There can be no assurances, however, that the Corporation will generate sufficient cash flow from operations or that it will not encounter unexpected costs in connection with implementing its business plan, and as a consequence there can be no assurances that the Corporation will

not require additional financing. The Corporation has no current arrangements with respect to any other additional financing, and there can be no assurance that any such additional financing can be obtained on terms acceptable to the Corporation, or at all. Failure to obtain additional financing would likely have a substantial material adverse effect on the Corporation. Moreover, in the event the Corporation was to obtain such additional financing, it could have a dilutive effect on Subscribers' participation in the revenues generated through the Corporation's operations.

Industry Risk

In addition, prospective Subscribers should take note of the following:

- (a) **General** – There are also risks faced by the Corporation because of the industry in which it operates. Real estate investment is subject to significant uncertainties due, among other factors, to uncertain costs of construction, development and financing, uncertainty as to the ability to obtain required licenses, permits and approvals, and fluctuating demand for developed real estate. The anticipated higher returns associated with the Corporation's Mortgages reflect the greater risks involved in making these types of loans as compared to long-term conventional mortgages. Inherent in these loans are completion risks as well as financing risks.
- (b) **Investment Concentration** – As the Corporation may have only one or a limited number of mortgage investments, it is susceptible to adverse market conditions such as business layoffs or downsizing, industry slowdowns, relocations of businesses, changing demographics and other factors. Demand for residential and commercial mortgages could be adversely affected by weakness in the national, regional and local economies, changes in supply of, or demand for, similar or competing sources of mortgage money. To the extent that any of these conditions occur, they are likely to affect the demand for residential and commercial mortgages and the interest rate, which could cause a decrease in the interest revenue to the Corporation. Any mortgage default could impair the Corporation's ability to pay dividends to its shareholders or could restrict its ability to redeploy capital.
- (c) **Credit Risk** – As with most mortgage investment corporations, the Corporation provides financing to borrowers who may not meet financing criteria for conventional mortgages from institutional sources and, as a result, these investments generally earn a higher rate of return than what institutional lenders may receive. Credit risk is the risk that the mortgagor will fail to discharge the obligation causing the Corporation to incur a financial loss. The Corporation will try to minimize its credit risk primarily by ensuring that the collateral value of the security fully protects both first, second, and third mortgage advances, that there is a viable exit strategy for each loan, and that loans are made to experienced developers and owners. In addition, the Corporation intends to limit the concentration of risk by diversifying its mortgage portfolio by way of location, property type, maximum loan amount on any one property and maximum loan amount to any one borrower.
- (d) **Liquidity Risk** – There is a risk that the Corporation will be unable to meet commitments associated with financial instruments. The Corporation controls liquidity risks through cash flow projections used to forecast funding requirements on mortgage proposals, which include anticipated redemption of Preferred Shares. The Corporation commits to mortgage investments only on an assured cash availability basis.
- (e) **Priority** – Financial charges for construction and other financing funded by conventional third-party lenders may rank in priority to the mortgages registered in favor of the Corporation. In the event of default by the mortgagor under any prior financial charge, the Corporation may not recover any or all of the monies advanced under foreclosure proceedings.

- (f) Default – If there is default on a mortgage, it may be necessary for the Corporation, in order to protect the investment, to engage in foreclosure or sale proceedings and to make further outlays to complete an unfinished project or to maintain prior encumbrances in good standing. In those cases, it is possible that the total amount recovered by the Corporation may be less than the total investment, resulting in loss to the Corporation. Equity investments in real property may involve fixed costs in respect of mortgage payments, real estate taxes, and maintenance costs, which could adversely affect the Corporation's income.
- (g) Impaired Loans – The Corporation may, from time to time, have one or more impaired loans in its portfolio, particulars of which can be obtained by contacting the Corporation. The Corporation defines loans as being impaired where full recovery is considered in doubt based on a current evaluation of the security held and for which write-downs have been taken or specific loss provisions established.
- (h) Yield – The yields on real estate investments, including mortgages, depend on many factors including economic conditions and prevailing interest rates, the level of risk assumed, conditions in the real estate industry, opportunities for other types of investments, legislation, governmental regulation and tax laws. The Corporation cannot predict the effect that such factors will have on its operations.
- (i) Renewal of Mortgages – There can be no assurances that any of the mortgages comprising the Corporation's mortgage portfolio from time to time can or will be renewed at the same interest rates and terms, or in the same amounts as originally negotiated. With respect to each mortgage comprising the mortgage portfolio, it is possible that the mortgagor, the mortgagee or both, will not elect to renew such mortgage. In addition, if the mortgages in the mortgage portfolio are renewed, the principal balance of such renewals, the interest rates and the other terms and conditions of such mortgages will be subject to negotiations between the mortgagors, the mortgagee and the Corporation at the time of renewal.
- (j) Competition – The earnings of the Corporation depend on the Corporation's ability, with the assistance of the Manager, to locate suitable opportunities for the investment and re-investment of the Corporation's funds and on the yields available from time to time on mortgages and other investments. The investment industry in which the Corporation operates is subject to a wide variety of competition from private businesses in Canada and the United States, many of whom have greater financial and technical resources than the Corporation. Such competition, as well as any future competition, may adversely affect the Corporation's success in the marketplace. There is no assurance that the Corporation will be able to successfully maintain its business plan or operate profitably. Existing competitors may have greater financial, managerial and technical resources, and name recognition than the Corporation. Competitors may reduce the interest rates they charge, resulting in a reduction of the Corporation's share of the market, reduced interest rates on loans, and reduced profit margins.
- (k) Risks of Leverage – Successful utilization of leverage, although not expected to be immediately implemented, depends upon the Corporation's ability to borrow funds from outside sources and to lend or invest such funds at a profitable rate of return. The risk of leverage is that it increases the Corporation's exposure to potential losses.
- (l) Environmental – Environmental legislation and policies have become an increasingly important feature of property ownership and management in recent years. Under various laws, the Corporation could become liable for the costs of effecting remedial work necessitated by the release, deposit or presence of certain materials, including hazardous or toxic substances and wastes at or from a property, or disposed of at another location.

The failure to effect remedial work may adversely affect an owners' ability to sell real estate or to borrow using the real estate as collateral and could result in claims against the owner.

- (m) Profitability – Although the Corporation will endeavor to maintain a diversified portfolio, the composition of the Corporation's investment portfolio may vary widely from time to time and may be concentrated by type of security, industry or geography, resulting in the Corporation's portfolio being less diversified than anticipated. There is no assurance that the Corporation's mortgage portfolio will be profitable.
- (n) Changes in Government Regulations – The Corporation may need to change the manner in which it conducts business if government legislation or regulation changes, including in respect of the Tax Act as it pertains to MICs.

ITEM 9 REPORTING OBLIGATIONS

The Corporation is not subject to continuous reporting and disclosure obligations which the securities legislation in any province would require of a "reporting issuer" as defined in such legislation and there is, therefore, no requirement that the corporation make disclosure of its affairs, including, without limitation, the prompt notification of material changes by way of press releases and formal filings or the preparation of quarterly unaudited financial statements and annual audited financial statements in accordance with generally accepted accounting principles.

The Corporation is required under the OBCA to send a copy of its annual financial statements to its shareholders.

ITEM 10 RESALE RESTRICTIONS

These securities will be subject to a number of resale restrictions, including a restriction on trading. Until the restriction on trading expires, you will not be able to trade the securities unless you comply with an exemption from the prospectus and registration requirements under securities legislation.

For trades in Alberta, British Columbia, Saskatchewan and Ontario:

Unless permitted under securities legislation, you cannot trade the securities before the earlier of the date that is four (4) months and a day after the date the Corporation becomes a reporting issuer in any Canadian province or territory.

The Corporation will not become a reporting issuer upon completion of this Offering and does not currently anticipate ever becoming a reporting issuer. **The resale restriction on the securities may therefore never expire.**

For trades in Manitoba:

Unless permitted under securities legislation, you must not trade the securities without the prior written consent of the regulator in Manitoba unless: (i) the Corporation has filed a prospectus with the regulator in Manitoba with respect to the securities you have purchased and the regulator in Manitoba has issued a receipt for that prospectus; or (ii) you have held the securities for at least 12 months. The regulator in Manitoba will consent to your trade if the regulator is of the opinion that to do so is not prejudicial to the public interest.

Purchasers should consult their legal advisors to determine the resale restrictions, availability of further exemptions or the possibility of obtaining a discretionary order.

ITEM 11 PURCHASER'S RIGHTS

If you purchase these securities, you will have certain rights, some of which are described below. For more information about your rights, you should consult a lawyer.

The securities laws in your jurisdiction may provide you with the right, in certain circumstances, to seek damages or to cancel your agreement to buy Preferred Shares. Most often, these rights are available if we make a misrepresentation in this Offering Memorandum or any amendment hereto, but in some jurisdictions, you may have these rights in other circumstances including if the Corporation fails to deliver the Offering Memorandum to you within the required time or if we make a misrepresentation in any advertisements or literature regarding Preferred Shares. Generally, a "misrepresentation" means an untrue statement about a material fact or the failure to disclose a material fact that is required to be stated or that is necessary in order to make a statement not misleading in light of the circumstances in which it was made. The meaning of misrepresentation may differ slightly depending on the law in your jurisdiction. In most jurisdictions there are defenses available to the persons or companies that you may have a right to sue. In particular, in many jurisdictions, the person or company that you sue will not be liable if you knew of the misrepresentation when you purchased the Preferred Shares.

The following summaries are subject to any express provisions of the securities legislation of each Selling Jurisdiction and the regulations, rules and policy statements thereunder and reference is made thereto for the complete text of such provisions.

The rights of action described herein are in addition to and without derogation from any other right or remedy that a Subscriber may have at law.

Two Day Cancellation Right – You can cancel your Subscription Agreement to purchase the securities. To do so, you must send a notice to the Corporation by midnight on the second Business Day after you sign the Subscription Agreement to buy the securities.

4. in no case will the amount recoverable in any action exceed the price at which the Preferred Shares were sold to you; and
5. the Corporation will not be liable for a misrepresentation in forward-looking information if the Corporation proves that:
 - (a) this Offering Memorandum contains reasonable cautionary language identifying the forward looking information as such, and identifying material factors that could cause actual results to differ materially from a conclusion, forecast or projection in the forward looking information, and a statement of material factors or assumptions that were applied in drawing a conclusion or making a forecast or projection set out in the forward looking information; and
 - (b) the Corporation has a reasonable basis for drawing the conclusion or making the forecasts and projections set out in the forward-looking information.

General

The securities laws of the provinces of British Columbia, Alberta, Saskatchewan, Manitoba and Ontario are complex. Reference should be made to the full text of the provisions summarized above relating to statutory rights of action. **Purchasers should consult their own legal advisers with respect to their rights and the remedies available to them. The rights discussed above are in addition to and without derogation from any other rights or remedies which Purchasers may have at law.**

ITEM 12 DIVIDEND REINVESTMENT PLAN

The Corporation, subject to maintaining the status of the Corporation as a “mortgage investment corporation” under the Tax Act, maintains a dividend reinvestment and Share purchase plan (the "DRIP"). Under the DRIP, Shareholders can reinvest dividends in additional Shares of the Corporation. The Corporation or the Manager administers all aspects of the DRIP. If the Purchaser wishes to participate in the Dividend Reinvestment Plan operated by the Issuer, the Purchaser must complete and return the Enrolment Form for Dividend Reinvestment Plan attached hereto as Schedule “B”.

Eligibility

All holders of Shares are eligible to participate in the DRIP by completing an enrolment form in the form attached hereto as Schedule “B” and returning it to the Corporation (the "Registered Participants"). If a Shareholder wishes to participate in the DRIP, they may enroll any of their Shares in the DRIP.

Investment Date

Dividends are calculated monthly, and paid and reinvested in Shares on a monthly basis (the "Investment Date"). In the future, the Corporation may calculate and pay dividends on the Shares on a quarterly or monthly basis within 15 days after each calendar quarter or month, respectively. The payment of a dividend, and the declaration, record and payment dates applicable to it are determined by the Board of Directors in its sole discretion.

Cost and Attributes of Shares Purchased under the "DRIP"

Shares are purchased at \$1.00 per Share and are issued from the Treasury of the Corporation. The Corporation uses the cash dividends attributable to a Shareholder to purchase additional Shares on behalf of the Shareholder. All Shares acquired through the DRIP are credited to the Shareholder's account. At the end of each fiscal quarter, unless declared and paid earlier, physical and where applicable, digital or PDF certificates will be issued and emailed to the Shareholder for all shares acquired under the DRIP for that fiscal year period. No fractional Shares will be issued by the Corporation under the DRIP. Residual cash dividends which are not used to purchase additional Shares will be credited to the account of the Shareholder. No brokerage or administration fees will be charged by the Corporation or the Manager for participation in the DRIP. A Shareholder may elect to purchase additional Shares at the same subscription price and at the same time as they acquire Shares under the DRIP. There is no minimum aggregate subscription amount under the DRIP. Shares issued under the DRIP may not be transferred or pledged.

Transaction Statements

Transaction statements are sent to Shareholders following each Investment Date. The transaction statements will show the Shares purchased under the Plan and should be retained for income tax purposes. The Corporation also reports to the Shareholder on an annual basis any required information for income tax purposes with regard to all dividends paid to each holder of Shares.

Termination of Participation in the DRIP

Participation in the DRIP may be terminated by a Shareholder at any time by giving written notice to the Corporation. In the event that written notice terminating participation in the DRIP is not received by the Corporation at least five business days before an Investment Date, the requested action will not be taken until after such Investment Date.

Liabilities of the Corporation and Manager

Neither the Corporation nor the Manager is liable for any act undertaken or omitted in good faith. Neither the Corporation nor the Manager can assure a profit or protect any Shareholder against a loss relating to Shares acquired or to be acquired under the DRIP.

Amendments to Plan and Termination by Corporation

The Corporation reserves the right to amend, suspend or terminate the DRIP at any time. In the event of any such occurrence, the Corporation will give reasonable notice in writing to all Shareholders. The Corporation and the Manager may make rules and regulations inconsistent with the terms of the DRIP in order to improve the administration of the DRIP.

Tax Consequences

The reinvestment of dividends does not relieve a Shareholder of liability for tax on those dividends. Holders of Shares who intend to participate in the DRIP should consult their tax advisers about the tax consequences which will result from their participation in the DRIP.

Preemptive Rights

Except as otherwise required by law, the holders of Shares are not entitled as such to subscribe for, purchase, or receive any part of any issue of shares, bonds, debentures or other securities of the Corporation.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Harvest Mortgage Investment Corporation

Opinion

We have audited the financial statements of Harvest Mortgage Investment Corporation (the "Company"), which comprise the balance sheet as at December 31, 2025, and the statements of income and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025, and the financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

(continues)

Independent Auditor's Report to the Shareholders of Harvest Mortgage Investment Corporation
(continued)

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

HARVEST MORTGAGE INVESTMENT CORPORATION
Notes to Financial Statements
Year Ended December 31, 2025

1. NATURE OF BUSINESS

Harvest Mortgage Investment Corporation (the "Corporation") was incorporated provincially under the Business Corporations Act of Ontario on August 3, 2021. The Corporation was established for the purpose of qualifying as a mortgage investment corporation under the Income Tax Act (Canada) and thereby generating an income stream for holders of preferred shares by advancing mortgage loans secured against real property in Canada. The Corporation's registered head office is located at 103-1614 Dundas Street East, Whitby, ON, L1N 8Y8.

2. Basis of presentation

Statement of compliance

The financial statements of the Corporation have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board ('IASB').

Functional and presentation currency

The financial statements have been prepared on the historical cost basis in Canadian dollars, which is the Corporation's functional currency.

Use of estimates and judgments

In the preparation of these financial statements, the management has made judgments, estimates and assumptions that affect the application of the Corporation's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In making estimates, management relies on external information and observable conditions where possible, supplemented by internal analysis as required. Those estimates and judgments have been consistently applied and there are no known trends, commitments, events or uncertainties that the Corporation believes will materially affect the methodology or assumptions utilized in making the estimates and judgments in these financial statements. The significant estimates and judgments used in determining the recorded amount of assets and liabilities in the financial statements include provisions for accrued liabilities, provision for credit losses and impairment of mortgage loans.

Mortgage investments

The Corporation is required to make an assessment of the impairment of mortgage loans. A mortgage loan is considered to be impaired only if objective evidence indicates that one or more events ("loss events") have occurred after its initial recognition, that have a negative effect on the estimated future cash flows of that asset. The estimate of future cash flows includes assumptions about local real estate market conditions, market interest rates, availability and terms of financing, the mortgage payment history and its ability to meet its obligations, and various other factors. These assumptions are limited by the availability of reliable comparable market data, economic uncertainty and the uncertainty of future events. Accordingly, by their nature, estimates of impairment are subjective and may not necessarily be comparable to the actual outcome. Should the underlying assumptions change, the estimated future cash flows could vary.

2. Basis of presentation (continued)

Measurement of fair values

The corporation's accounting policies and disclosures require the measurement of fair values for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or liability, the Corporation uses market observable data where possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs)

Management reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or appraisals are used to measure fair values, Management will assess the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

3. SIGNIFICANT ACCOUNTING POLICIES

Financial Instruments

Classification and Measurement

All financial instruments are required to be measured at fair value on initial recognition. Subsequent to initial recognition, financial assets are categorized and measured based on how the corporation manages its financial instruments and the characteristics of their contractual cash flows. IFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income and fair value through profit and loss. A financial asset is measured at amortized cost if it meets both of the following conditions:

- a) It is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial liabilities are classified and measured based either at amortized cost or fair value through profit and loss. All financial liabilities are measured at amortized cost.

The following table summarizes the classification and measurement of financial instruments:

Financial Assets:

Cash	Amortized cost
Mortgages receivable	Amortized cost

Financial Liabilities:

Accounts payable and accrued liabilities	Amortized cost
Cash distributions payable	Amortized cost
Due to related parties	Amortized cost

Derecognition of financial assets

The Corporation derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire; or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred, or in which the Corporation neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial assets. Any interest in such transferred financial assets that qualify for de-recognition that is created or retained by the Corporation is recognized as a separate asset or liability. On de-recognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset transferred), and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognized in other comprehensive income is recognized in the statement of income and comprehensive income.

Financial liabilities

The corporation derecognizes a financial liability when the obligation under the liability is discharged, cancelled or expires.

Impairment

The Corporation adopted the expected credit loss (“ECL”) impairment model for all financial assets and certain off-balance sheet loan commitments and guarantees. The ECL model may result in an allowance for credit losses being recorded on financial assets regardless of whether there has been an actual loss event.

The ECL model requires the recognition of credit losses based on 12 months of expected losses for performing loans (Stage 1) and the recognition of lifetime expected losses on performing loans that have experienced a significant increase in credit risk since origination (Stage 2). The allowance for assets in Stage 2 will be higher than for those in Stage 1 as a result of the longer time horizon associated with this stage. Stage 3 required lifetime losses for all credit impaired assets.

The Corporation also considers past events, current market conditions, and reasonable supportable information about future economic conditions which is available without undue cost or effort, in determining whether there has been a significant increase in credit risk, and in calculating the amount of expected losses. The standard also requires future economic conditions be based on an unbiased, probability-weighted assessment of possible future outcomes.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

The determination of a significant increase in credit risk takes into account different factors and will vary by nature of investment. The Corporation assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due and borrower specific criteria as identified by the management. As is typical in shorter durations, structured financing, the management does not solely believe there has been a significant deterioration in credit risk as it is not uncommon for mortgage and other investments to go into receivable position for a period greater than 30 days. The management actively monitors these mortgage and other investments and applies judgement in determining whether there has been significant increase in credit risk. The Corporation considers a financial asset to be in default when the borrower is more than 90 days past due and when there is objective evidence that there has been a deterioration of credit quality to the extent the Corporation no longer has reasonable assurance as to the timely collection of the full amount of principal and interest.

In cases where a borrower experiences financial difficulties, the Corporation may grant certain concessionary modifications to the terms and conditions of a loan. Modifications may include payment deferrals, extension of amortization periods, debt consolidation, forbearance and other modifications intended to minimize the economic loss and to avoid foreclosure or repossession of collateral. The Corporation determines the appropriate remediation strategy based on the individual borrower.

If the Corporation determines that a modification results in expiry of cash flows, the original asset is derecognized while a new asset is recognized based on the new contractual terms. Significant increase in credit risk is assessed relative to the risk of default on the date of modification. If the Corporation determines that a modification does not result in derecognition, significant increase in credit risk is assessed based on the risk of default at initial recognition of the original asset. Expected cash flows arising from the modified contractual terms are considered when calculating the ECL for the modified asset. For loans that were modified contractual terms are considered when calculating the ECL for the modified asset. For loans that were modified while having a lifetime ECL, the loans can revert to having 12-month ECL after a period of performance and improvement in the borrower's financial condition.

Future accounting policy changes

The Corporation monitors the potential changes in standards proposed by the International Accounting Standards Board (IASB) and analyzes the effect that the changes in the standards may have on the Corporation's operations. For the period ended December 31, 2025, there were no significant changes in accounting policies and no future accounting standards that are expected to impact the Corporation.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and cash equivalents

The Corporation considers highly liquid investments with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value to be cash equivalents.

Mortgage loans

Mortgages loans are recorded at amortized cost using the effective interest rate method. Interest income is allocated over the expected term by applying the effective interest rate to the carrying amount of the loan. Origination revenues and costs are applied to the carrying amount of the mortgage and other loans and discounted along with the principal.

Mortgages interest income

Mortgages interest income is recognized at the effective interest rate and recorded over the term of the mortgage loans when reasonable assurance exists regarding measurement and collectability.

Income taxes

The Corporation is a mortgage investment corporation ("MIC") pursuant to the Income Tax Act (Canada). As such, the Corporation is entitled to deduct from its taxable income dividends paid to shareholders during the year or within 90 days of the end of the year to the extent the dividends were not deducted previously. The Corporation intends to maintain its status as a MIC and intends to distribute sufficient dividends in the year and in future years to ensure that the Corporation is not subject to income taxes. Accordingly, for financial statement reporting purposes, the tax deductibility of the Corporation's dividends results in the Corporation being effectively exempt from taxation and no provision for current or future income taxes is required.

4. AMOUNTS RECEIVABLE

Year end balances of amounts receivable include amounts due from Harvest Mortgage Administration Inc., a corporation related by virtue of common ownership. These amounts were \$0 and \$41,861 at year end 2025 and 2024, respectively. The amounts due from Harvest Mortgage Administration Inc. are in the normal course of business.

	2025	2024
Residential, 14 residential (2024, 14 residential)	\$ 2,357,500	\$ 2,245,600

The mortgage loans at year end have terms remaining ranging from three to twenty-eight months. The mortgage loans at year end bear interest at rates ranging from 9.99% to 14.99% with the weighted average being 12.05%.

The mortgage loans are secured by first and second mortgages on residential real estate.

Allowance for credit losses

The Corporation applies the expected credit loss (“ECL”) model in accordance with IFRS 9 Financial Instruments to all mortgage loans measured at amortized cost. Expected credit losses represent a probability-weighted estimate of credit losses over the expected life of each mortgage loan, taking into account past events, current conditions, and reasonable and supportable forward-looking information.

The Corporation assesses expected credit losses on an individual loan basis, as the mortgage portfolio consists of a limited number of loans with unique borrower and collateral characteristics. For performing mortgage loans (Stage 1), the Corporation recognizes an allowance equal to 12-month expected credit losses, representing the portion of lifetime expected losses that result from default events that are possible within 12 months after the reporting date.

In determining expected credit losses, management considers, among other factors:

- the loan-to-value ratios of the underlying collateral
- current and historical borrower payment performance,
- the remaining term to maturity of the mortgage loans,
- the nature, location and marketability of the underlying real estate collateral,
- prevailing and forecasted residential real estate market conditions, and
- reasonable and supportable forward-looking information, including interest rate and economic conditions relevant to the Canadian residential mortgage market.

A mortgage loan is considered to have experienced a significant increase in credit risk when it is more than 30 days past due or when other borrower-specific indicators suggest a deterioration in credit quality. A loan is considered credit-impaired (Stage 3) when it is more than 90 days past due or when there is objective evidence that the Corporation no longer has reasonable assurance of the timely collection of principal and interest.

As at December 31, 2025, all mortgage loans held by the Corporation were current as to principal and interest, and no loans were more than 30 days past due. Based on management’s assessment of borrower credit quality, collateral values, probability of default, and forward-looking economic information, management has determined that the 12-month expected credit losses on the mortgage portfolio are not material to the financial statements. Accordingly, no allowance for expected credit losses has been recorded as at December 31, 2025 (2024 – \$Nil).

5. MORTGAGES AND OTHER LOANS RECEIVABLE *(continued)*

While no allowance has been recognized, a deterioration in borrower credit performance, a sustained decline in residential property values, or adverse changes in broader economic conditions could result in the recognition of expected credit losses in future periods. For illustrative purposes, management estimates that a decline in collateral values of approximately 5%, holding all other assumptions constant, would not result in a material expected credit loss at the reporting date.

Allowance for credit losses by stage was as follows:

Stage 1 – Performing loans: \$Nil (2024 – \$Nil)

Stage 2 – Underperforming loans: \$Nil (2024 – \$Nil)

Stage 3 – Credit-impaired loans: \$Nil (2024 – \$Nil)

Total allowance for expected credit losses: \$Nil (2024 – \$Nil)

6. RELATED PARTY TRANSACTIONS

The Corporation enters into transactions with related parties in the normal course of operations. Related parties include entities that are under common control or significant influence, as well as key management personnel of the Corporation.

Under a Mortgage Service Agreement, Harvest Mortgage Administration Inc. (“Admin”), a company related to the Corporation by virtue of common ownership, provides mortgage administration and servicing services. Admin is entitled to an annual servicing fee of up to 2.0% (2024 – 2.0%) of the outstanding aggregate principal balance of the Corporation’s mortgage loans.

During the year ended December 31, 2025, the Corporation incurred servicing fees of \$25,184 (2024 – \$75,543) payable to Admin. These fees are included in management fees in the statement of income and deficit. The services provided and the fees charged by Admin are consistent with those that would be charged by arm’s length parties for similar services.

As at December 31, 2025, amounts payable to Admin totaled \$36,875. These balances are unsecured, non-interest bearing, and are payable on demand.

7. GOING CONCERN

Management has assessed the Corporation's ability to continue as a going concern for a period of at least twelve months from December 31, 2025. In performing this assessment, management considered the Corporation's liquidity position, forecast cash flows, contractual maturities of financial liabilities, expected mortgage repayments, and the ability to raise additional capital through the issuance of preferred shares.

As at December 31, 2025, the Corporation held cash of \$159,402 and had no external debt other than related party advances described in Note 6. Mortgage loans held by the Corporation typically have remaining terms of less than three years and generate ongoing interest cash flows. The Corporation expects to fund operating expenses and shareholder distributions from mortgage interest income, scheduled repayments, and, where necessary, new capital subscriptions.

While the Corporation's preferred shares are retractable at the option of shareholders, redemptions are subject to the Corporation maintaining adequate liquidity and complying with applicable solvency requirements. Management monitors redemption requests and liquidity on an ongoing basis.

Based on the above considerations, management has concluded that the use of the going concern basis of accounting is appropriate. However, adverse changes in market conditions, borrower performance, or increased redemption activity could impact the Corporation's liquidity position.

8. Share capital

Authorized:

- Unlimited Class A non-voting preferred shares, redeemable and retractable at \$1.00 issue price, non-cumulative dividend
- Unlimited Common voting shares

	\$ 2,383,991	\$ 2,308,187

The Class A preferred shares are classified as equity instruments under IAS 32 as the Corporation does not have a contractual obligation to redeem the shares for cash. Redemptions are subject to the Corporation satisfying applicable liquidity and solvency requirements and are at the discretion of the Corporation

9. CAPITAL MANAGEMENT

The Corporation's objectives when managing capital is to safeguard its ability to continue as a going concern so that it can provide returns for its shareholders and benefits for other stakeholders. The Corporation considers the items included in shareholders' equity and cash as capital. The Corporation manages the capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. The Corporation's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to fund the operations of the Corporation. The Corporation is not subject to externally imposed capital requirements.

Distributions to shareholders are determined by the Board of Directors and are not directly linked to accounting net income. Distributions may include returns of capital and may exceed net income in a given period. Management monitors the sustainability of distributions with reference to cash flows, retained earnings, and capital preservation objectives.

10. FINANCIAL RISK MANAGEMENT

The Corporation is exposed to the symptoms and effects of global economic conditions and other factors that could adversely affect its business, financial condition and operating results. Many of these risk factors are beyond the Corporation's direct control. Management and Board of Directors play an active role in monitoring the Corporation's key risks and in determining the policies that are best suited to manage these risks.

The Corporation's business activities, including its use of financial instruments, exposes the Corporation to various risks, the most significant of which are interest rate risk, credit risk, and liquidity risk.

The Corporation's strategy is to acquire and maintain a diversified portfolio of mortgages on real property in Canada that preserves capital and generates returns in order to permit the Corporation to pay distributions to its preferred shareholders.

Management has been given discretionary authority to manage the assets in line with the Corporation's investment restrictions and objectives. Compliance with the target asset allocations and the composition of the portfolio is monitored by the board of directors on an ongoing basis.

Interest rate risk

The Corporation is exposed to the risk that the fair value or future cash flows of its financial instruments will fluctuate as a result of changes in market interest rates. In respect of the Corporation's interest bearing financial instruments, the Corporation's policy is to transact in financial instruments that mature in the short term and the mortgage investment agreements for all mortgages held by the Corporation stipulate a fixed rate of interest. Accordingly, the Corporation would be subject to limited exposure to fair value or cash flow interest rate risk due to fluctuations in the prevailing levels of market interest rates.

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Corporation, resulting in a financial loss to the Corporation. This risk arises principally from the mortgages held, and also from cash, and receivables. For risk management reporting purposes the Corporation considers and consolidates all elements of credit risk exposure (such as loan to value, sector risk, location risk, and individual obligor default risk).

The Corporation's policy over credit risk is to minimize its exposure to counterparties with perceived higher risk of default by dealing only with counterparties meeting certain credit standards.

Credit risk is monitored on an on-going basis by the management of the Corporation in accordance with policies and procedures in place.

The Corporation's maximum credit risk exposure (without taking into account collateral and other credit enhancements) at December 31, 2025 is represented by the respective carrying amounts of the relevant financial assets in the statement of financial position.

Liquidity risk

Liquidity risk is the risk that the Corporation will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

10. FINANCIAL RISK MANAGEMENT (continued)

The Corporation's liquidity risk is managed on an ongoing basis by management of the Corporation in accordance with the policies and procedures in place.

The following are the contractual maturities of financial liabilities as of December 31, 2025.

<u>2025</u>	<u>Carrying values</u>	<u>Contractual cash flows</u>	<u>Contractual term to maturity</u>
Accounts payable and accrued liabilities	\$ 26,162	\$ 26,162	Payable within a year
Cash distributions payable	\$ 1,361	\$ 1,361	Payable within a year
<u>2024</u>	<u>Carrying values</u>	<u>Contractual cash flows</u>	<u>Contractual term to maturity</u>
Accrued liabilities	\$ 68,009	\$ 68,009	Payable within a year
Cash distributions payable	\$ 1,701	\$ 1,701	Payable within a year

Market risk

Market risk is the risk that changes in market factors, such as interest rates, currency and other price risks will affect the Corporation's income or the fair value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing the return.

The Corporation's strategy for the management of market risk is driven by the Corporation's primary investment objective which is to invest in a diversified portfolio of mortgages on real property located within Canada that preserves capital and generates returns in order to permit the Corporation to pay monthly distributions to its common shareholders.

The Corporation's market risk is managed on a daily basis by the management of the Corporation in accordance with policies and procedures in place.

Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Corporation is not currently exposed to currency risk.

You are buying *Exempt Market Securities*

They are called *exempt market securities* because two parts of securities law do not apply to them. If an issuer wants to sell *exempt market securities* to you:

- the issuer does not have to give you a prospectus (a document that describes the investment in detail and gives you some legal protections), and
- the securities do not have to be sold by an investment dealer registered with a securities regulatory authority or regulator.

There are restrictions on your ability to resell *exempt market securities*. *Exempt market securities* are more risky than other securities.

You will receive an offering memorandum

Read the offering memorandum carefully because it has important information about the issuer and its securities. Keep the offering memorandum because you have rights based on it. Talk to a lawyer for details about these rights.

The securities you are buying are not listed

The securities you are buying are not listed on any stock exchange, and they may never be listed. You may never be able to sell these securities.

The issuer of your securities is a non-reporting issuer

A *non-reporting issuer* does not have to publish financial information or notify the public of changes in its business. You will not receive ongoing information about this issuer.

For more information on the *exempt market*, call your local securities regulatory authority or regulator.
